Debt Management: Get Paid Faster

The Opera 3 Credit Management Centre is designed to streamline your credit control processes, to help reduce bad debts, increase cash flow and improve the overall financial position of your business.

60% of small to medium businesses are now experiencing late customer payments.

If you're one of them, Debt Management is just what you need to get your cash flow back on track.

The Credit Management Centre provides credit controllers and those involved in debt management with a centralised, easy-to-use tool which consolidates all of the information needed for effective credit control. Easy-to-understand, real-time graphs display your overall financial status so you can quickly see what is owed, who owes it and how much money has been promised by customers.

Debt Management is just one of the key features available as standard to Opera 3 customers with the Credit Management Centre application on a current AMC .

To help combat late payments, a new Debt Management feature has been added to the Credit Management Centre for designing, generating and sending correspondence to debtors. Features include powerful filters which allow you to manage customers that are over their credit limit and/or have overdue invoices as well as the ability to organise these customers into user defined groups according to their debt. For more information on the Opera 3 Credit Management Centre and its exclusive features, contact Minster.

Don't forget to add us on Facebook & Twitter for the latest news from Minster and updates on what's happening in the IT industry.

Keep The Spark In Your Manufacturing Business With SAP Business One

We understand that industry-specific challenges cannot be approached with most generic solutions.

Together with SAP Business One, Minster can help manufacturing businesses compete and operate effectively in this fast paced environment. The SAP functionality supports the made-to-order market, where capacity planning, scheduling and utilisation of resources are crucial.

Minster Appoint PR Company To Help With Growth

Minster has confirmed the appointment of Evopr.com to manage its Worcestershire and Midlands communication activity. Susan Marlow (Director at Minster Micro) commented: "From our initial meeting everything clicked and just fell in to place. We're now enjoying the process of working with Evopr.com to further enhance and promote our IT business offer." Kathryn Watts, business owner and founder of Evopr.com commented: "Minster is a highly regarded IT support solutions provider. Their enthusiasm is infectious, and I am thrilled to be working with them to create a long and successful partnership." We look forward to working with Kathryn!

Kathryn Watts (Evopr) with Minster Directors Nick & Susan Marlow

It's All About The Bass!

Nick Marlow, Managing Director at Minster, used his musical talent to help a local school with their stage production of 'Hairspray'. Over 40 students from Holy Trinity School were involved in recreating this West End masterpiece. Performing to sell-out audiences for all three shows (20-22 Nov), Nick was delighted to help the school and its students by playing his bass guitar!
